Dear Laura:

Having the HydroMassage right in my own home has been a boost to my health and well being. I might add everyone that comes to the house wants to try it out and I may have more "visitors" than normal because of it.

It is with great pleasure that I'm writing this letter to let you and your staff know what a difference the HydroMassage has made. So, without hesitation I will (and already have) recommended the HydroMassage to anyone who is looking to relax, reduce stress as well as relieve aches and pains.

Thanks so much for all you did to organize the set up and teach everyone in the household how to use the HydroMassage.

Best of luck.

Most Cordially,

Lee Iacocca
